Projects

Bawarchi AI

- Designed and prototyped a personalized AI cooking assistant.
- Conducted user interviews and created user flows.
- Published a detailed case study focusing on clarity and user-centered design.

Redesigning Browser User

- Redesigned the landing page of an AI automation tool to improve trust and onboarding clarity.
- Produced a documented case study and shared learnings publicly.

Zepto AI

- Redesigned the shopping experience to reduce decision fatigue, surfacing contextual AI nudges based on user intent and real-world signals (weather, past purchase behaviour, time of day).
